

Culture FOR LIFE

Calling all Youth

To mark World Suicide Prevention Day on September 10th 2017, we are choosing to focus on LIFE through culture.

We want to help facilitate meaningful connections with culture for First Nations youth and have youth themselves highlight the strength of culture and how it can promote wellness and LIFE!

How?

- Send in a photo or video of yourself connecting with your culture (fishing, cooking a feast, attending a gathering, etc).
- Share the power of culture through any medium (drawings/paintings/poetry/photos/videos). Show the world how creative you are!
- Share how your culture promotes your own wellness, and LIFE!

When?

- Send your submission to cultureforlife@afn.ca by September 5th. All those that submit before the deadline and are twenty-five and under will be entered to win an iPad! *Include your age and contact information with your submission to be entered
- Your submission will reach other youth across the country via AFN and Thunderbird Partnership Foundation social media and cultureforlife.ca

My Culture. My Life.
